## Build, Craft, Invent, Play and Make!

Inaugural Buffalo Mini Maker Faire highlights local Makers' inventions and ideas.

The Buffalo Museum of Science (BMS) will hold the area's first Buffalo Mini Maker Faire on Saturday, March 1st, 2014. The event will be held at the Museum (1020 Humboldt Parkway, Buffalo)

from 10:00 am to 4:00 pm.

Maker Faire events celebrate creativity, invention, and the do-it-yourself spirit. In the most general of terms, a maker is "a person that makes or produces something". The

Museum will showcase a diverse mix of Makers at their upcoming event, ranging from tech enthusiasts to crafters to home-steaders to scientists to garage tinkerers.

Some of the featured Makers at the Buffalo Mini Maker Faire include:

- Buffalo Lab Learn to Solder Workshop: Learn to solder like a pro, a key maker skill for making electronic circuits, robots, jewelry and many other cool projects.

- Battle Bots: Observe two combat robots that went to battle at Robogames 2013 in San Mateo, California.

- Avian Architecture: Learn about metal sculpting, including wax and sand casting techniques that have been used for centuries to mold and pour hot metal into forms along with more methods.

- Maker Junior: Learn

## People Inc. Acquires Senior Program

People Inc. has recently acquired the Senior Companion Program from Child and Family Services. The program's goal is to provide aid and, ultimately, independence to seniors and other adults who are frail or homebound. Among other activities, the Senior Companion may assist with daily living tasks, such as grocery shopping and bill paying; provide friendship and companionship; alert doctors and family members to potential problems; and provide a break to family caregivers.

A Senior Companion, 55 or older, who lives in Erie County, volunteers his or her time supporting the lives of older adults. They serve older adults who are frail, adults with disabilities, those with terminal illnesses and offer respite for caregivers.

Seniors who receive assistance from a Companion receive quality support and will find countless opportunities open to them with the help of a Companion. Seniors who receive the support are 55 or older who live in Erie (Continued on page 3)

## Canisius College Chorale To Present Concerts

The concert on March 9th will also feature the Canisius Concert Band, Orchestra and Jazz Ensemble.

The Canisius College Chorale, under the direction of Frank Scinta, will present two concerts of sacred and secular music on the following dates:

Sunday, March 2nd, 2014, 7:30 pm at St. Pius X Church, 1700 North French Rd., Getzville, NY;

Sunday, March 9th, 2014, 7:00 pm at Canisius College - Montante Cultural Center, 2001 Main St., Buffalo, NY (with the Canisius Concert Band, Orchestra and Jazz Ensemble). Featured will be works of Vivaldi, Pachelbel, (Continued on page 4)

## Jacobs Urges DMV Change

Last year New York State passed Lauren's Law, named after Lauren Shields who at age nine waited more than a month on an organ donation list and was put on life support before receiving a lifesaving heart transplant. Lauren's Law requires anyone over the age of 18 getting a new driver's license to answer whether they would like to be an organ donor. Previ-

ously the question was optional. The goal of the law is to increase the number of individuals signing up to be organ donors when they are at the local Auto Bureaus and DMV's. Presently 90 percent of those that sign up do so at their Auto Bureaus; however, New York State has a very low rate of organ donors compared to the national average.

County Clerk Jacobs

says that efforts to enforce the law can be strengthened, "Currently, even if the organ donor question is ignored the DMV computer system allows the transaction to process." Jacobs is urging the State to reprogram the system to implement a hard stop during the transaction if the cashier does not check "yes" or "skip this question". "This will make sure (Continued on page 6)

## 'Stamp Out Stupidity'

No wonder the post office is losing money. Nearly a month after rates rose, it still doesn't have the stamps the new prices require. How long would a private business last with so little foresight?

Then there's the quarterly catalogue, which basically gives the red-inkers the opportunity to pick up money off the sidewalk. That's not ready, either. Can you imagine Johnny's getting a fresh load of meats and keeping it secret from eager customers?

In post offices all over, staffers are downright embarrassed.

As surely you know, in January rates went from 46 cents to 49 for an ounce and the second ounce from 20 to 21 cents, boosting the two-ounce rate from 66 to 70. The postcard rate went from 33 cents to 34. For the sake of such postcard-collecting pals as Rockin' Rodney in Liverpool, Rocket Man always keeps a few 33's on board

for exotic orbits.

Now the one-ounce rate, no problem. Almost all first-class stamps bear the legend "Forever," good for what you bought them for, no matter the new costs. All those stamps we bought for 46 cents on Saturday were worth 49 cents on Monday. The \$1.10's were worth \$1.15. That's better odds than you get at the casino.

It pays. The post office doesn't have to print a lot of three-penny makeup stamps when the rates rise, and further makes money when people misplace the stamps, present company included.

But it doesn't follow through. Local post offices are told not even to ask for 21-cent or 70-cent stamps, reflective of the new rates, nor postcard stamps, either, which we understand will display a hummingbird. The 33's showed apples, the 32's Hawaiian shirts, which we loved.

So Rocket Man applies two stamps where one would do the job, waiting for postal higher-ups to get their heads out of the mailbox.

Then there's the catalogue situation. Rocket Man no longer "collects" stamps, in the sense of categorizing them and filing them in folders, but has big inventories of stamps for pen pals – baseball sluggers for diamond fans, "celebrates" for special occasions, ships for sailors, Gregory Pecks for movie buffs and Ronald Reagans just to irritate Rocket Man's "progressive" friends.

When the post office sells a stamp, it reverses J. Wellington Wimpy's "I'll give you a dollar on Tuesday for a hamburger today." We pay in advance for a service to be rendered later, if we can just find the stamps. Collectors never use their stamps, so their issuance to philatelists – love that word – represents pure profit.

But heck, it's the government, so who needs profits. And the issues go unsold. And the rates rise. Your tax dollars on lunch break.

While Western New York has had to deal with an extremely cold winter, a group of coaches from the Hertel North Park Youth Baseball League (HNPYBL) have been meeting to discuss the upcoming season. In a letter to all friends of the league, president Don Morris informed the community of ways the volunteers who run HNPYBL hope to end a stretched out season. "We have heard your complaints and are going to answer them."

This year, the league will open the 2014 season one week earlier than in previous years. This would mean the new date for Opening Day is Saturday, May 3. As many as 32 games are scheduled for a Saturday in a given season for many boys and girls in

various divisions. With as many as 65 teams playing in the Park each year, the weather can wipe out the whole slate of games scheduled for that day and is already an obstacle towards having a good season. The league has had good weather for the festivities in recent years.

"We will make up rain-out dates during the season when possible," the letter continues. "When we return from the July 4th break, we will make up as many rainouts as we can. Any games not made up by July 11th, will not be rescheduled. The regular season champion will be determined by the team's winning percentage."

This year the playoffs will start on July 12th and for the first time, will be a double elimination tourna-

ment. No team can or will be eliminated after only one playoff game. Regardless of how a team finishes in a division, every team will still make the playoffs. However, in the Major Pony, Senior Girls and Senior Boys divisions, the playoff format will remain the same as last year.

Morris feels these changes will make HNP better and keep the numbers strong in registration each year. He is especially pleased with the T-Ball divisions for both the boys and girls where a child can play as early as age four. Their numbers have increased in just their third season and show proof that HNP can stay strong as a child's first sport they learn how to play.

"We are the longest

consecutively run youth program in Western New York," he stated emphatically. "To my knowledge, it's the largest youth baseball and softball league in the area." Many families who brought their children here 30 years ago, are returning to watch their grandchildren now play. It's become a neighborhood fixture in the community, the place to be in the summertime.

Part of that has much to do with the way the league opens their season each spring. Teams gather at the corner of Hertel and Saranac Avenue early Saturday morning for the annual parade up Hertel to the Park.

By that time, a child has received a team jersey and cap to wear for the first

time. Families have been known to line both sides of Hertel Avenue to watch as many as 40 teams make the long trek to Shoshone. All children are escorted by their team's coach and all follow a Buffalo police and fire unit against oncoming traffic.

At the park, the winning raffle ticket winners names are announced, the first pitch is thrown usually by visiting guests invited and the National Anthem is played. Then it's time for "PLAY BALL!"

It all begins this Saturday morning at 11:00 am when the leagues volunteers will be at the North Buffalo Community Center to take your application to play Baseball and Softball in North Buffalo for Hertel North Park.

## Canisius College Chorale Concerts

(Continued from page 1) Ticheli, Hogan, Dawson and others.

Now in its sixteenth season, The Canisius College Chorale remains one

of Western New York's most active collegiate music ensembles. Composed of one hundred undergraduate and graduate members, the Chorale regularly

presents concert programs to school, church, and community audiences throughout Western New York and Southern Ontario. With a repertoire covering more than five centuries of composition and nearly every interpretive style of choral music, its performances regularly attract capacity audiences to the Montante Cultural Center at Canisius College and other regional venues.

**I am happy, fun and playful!!**  
Trigger is a 10 month old pit bull mix who was recently surrendered to the shelter when his owner could not care for him anymore. He has the most adorable ears and a smile that lights up a room whenever he is there. Trigger is a typical, happy, young fellow. He loves playing with the other dogs, going for walks, basking in the attention of humans. Like most dogs of this age, he is energetic and exuberant, but takes correction very well, and should be a fast learner. This guy is just waiting for someone to love him forever and ever, could it be you?

# Stream & Lake Map of New York

### LOST STREAM MAP

The STREAM & LAKE MAP OF NEW YORK resembles another map—known to Pennsylvania anglers as the "Lost Stream Map." The "Stream Map of Pennsylvania" was completed in 1965 after a thirty-year effort by Howard Higbee, a former Penn State Professor.

Professor Higbee succeeded in creating a map of the highest detail possible—a map that shows every stream and lake. He painstakingly plotted by hand, the location of 45,000 miles of streams onto a 3 by 5 foot map.

The map sold extremely well—until it was lost several years after it first appeared in print. Incredibly, the printer entrusted with the original drawing and printing plates, declared bankruptcy, then carelessly hauled Higbee's 30 years of work to a landfill.

The few remaining dog-eared copies became a prized fisherman's possession. Professor Higbee was offered \$400 for one of his last maps. And state agencies were forced to keep their copies under lock and key.

Experts told Professor Higbee that reprints were impossible, because the maps were printed in non-photographic blue.

Then, in 1991, at the age of 91, Howard Higbee's dream came true. Computers made it possible to reprint the map. Holding an updated map, Howard said, "I never thought I'd live to see this day."

Then, by combining Professor Higbee's knowledge with computer technology—the STREAM & LAKE MAP OF NEW YORK was created.

### Why every angler and boater needs this map

Professor Higbee's Stream & Lake Map of New York is the first and only highly detailed map of its kind. The 3.5-foot-by-4.5-foot New York map shows 65,000 miles of streams plus lakes.

**For a limited time -- get 3 bonuses with each map**

**BONUS #1** **GUIDEBOOK:** Pinpoint the best fishing in New York with this valuable guide. Easily locate over 3,000 streams and 1,200 lakes shown on the "Stream & Lake Map." Your map guide will take you to the top 1,123 select water for 19 species of gamefish.

**BONUS #2** **REPORT: Finding Secret Fishing Spots**  
47 tips, tactics and tools you can use to find your own secret spot and catch more fish.

**BONUS #3** **REPORT: How Anglers Stalk and Catch Record Fish**  
The average big fish has evaded capture for over 10 years. Find out which instincts set them apart from smaller fish. Stalking and catching a trophy requires knowledge of their unique habits and those special times when their guard is down. Armed with the information in this new and exclusive 24-page report—you could be in for the fight of your life.

### RAVE REVIEWS

"It is in showing where to find out-of-the-way trout streams that makes the map such a treasure to the fisherman."  
—Joe Gordon, TRIBUNE-DEMOCRAT, Johnstown, PA

"I have one of the original Higbee's Stream Map of Pennsylvania on my wall behind my desk. It's the best thing available as far as streams are concerned. I use it all the time for reference. I don't know of anything more extensive and it is the most accurate map out there as far as streams are concerned."  
—Dave Wolf, PA Fish and Boat Commission

# Jacobs Urges DMV Change

(Continued from page 1) the customer answers the question, and if left blank the cashier will be prompted to remind them they have to answer," added Jacobs.

Jacobs has sent a letter to Barbara Fiala, New York State Department of Motor Vehicles Commissioner, requesting that these changes be made. "If we are able to ensure that every person will be required to think about the question of becoming an organ donor when applying for a license, we can dramatically increase the number of people enrolled in the organ donor registry," stated County Clerk Jacobs. "New York can go from 47th nationally in state organ donations, to being a leader in this area."

"Currently the DMV computer system will not approve a transaction if someone does not list their address on the form and we simply think the organ donation question should be given the same importance," says Jacobs.

For more information on how to become an organ donor the next time you come to the Erie County Auto Bureau visit [www.erie.gov/clerk/donatelife](http://www.erie.gov/clerk/donatelife).

# GO FIGURE!

by Linda Thistle

The idea of Go Figure is to arrive at the figures given at the bottom and right-hand columns of the diagram by following the arithmetic signs in the order they are given (that is, from left to right and top to bottom). Use only the numbers below the diagram to complete its blank squares and use each of the nine numbers only once.
