## Sabres Show Their Mettle With 7 losses in 8 Games

After losing a 3-0 lead Sunday night at Pittsburgh to fall 4-3, the Sabres returned home and laid a season defining stinker losing 6-3 to the Philadelphia Flyers Tuesday night at Key Bank. While goalie Robin Lehner takes his share of the blame for a poor performance, surrendering six goals on 30 shots, his teammates certainly didn't provide much help.

"We weren't ready from the start, the first period they really took it to us. We were lucky to come out tied

(1-1)," said captain Brian Gionta following the game. Coach Dan Bylsma added, "I thought we weren't ready to play the game, that's what it looked like. Maybe we were a little shell shocked, maybe back on our heels from the previous game."

Those statements are an indictment of a flawed team, that can't regroup 48 hours after a disappointing loss. Other than Jack Eichel's two goals and Evander Kane single tally, and some occasional spirited play in the Flyers

defensive zone, the Sabres gave the fans little reason to cheer. All of the talk about contending for a playoff spot which is still only five points away rings hollow with this being the teams seventh loss in their last eight games.

The Flyers scored six even strength goals to Buffalo's one, continuing a season long trend where the Sabres are the leagues lowest scoring team five on five.

Eichel had three points on the night to extend his point scoring streak to 11 games with 16 points on five goals and 11 assists. He also picked up his 100th point as a Sabres, the third youngest player to do so behind Phil Housley and Pierre Turgeon. He now has 101 career points in 127 games. Since February 1st, Eichel has picked up 24 points, the most of any player in the NHL.

# GINO

Gino is a big handsome 5 year old. Don't be fooled by his seemingly sad expression. This sweet, friendly boy is just a bit pensive - wondering why he was surrendered to the shelter. This large kitty is a wonderful companion to humans and other animals. As Subaru says, he is dog tested and dog approved. (Nose to nose with a pit bull at the shelter.) Gino is now gracing the lobby at the West Side Pet Clinic on Niagara Street. Stop by and meet him - he loves company! Or better yet take him home. After many years of volunteering he was elected to the Executive committee of the United Irish American Association. He continues this work in areas from fund raising to helping with setup and take down of reviewing stands and barricades after parade day.

State College Great Lakes Center and SUNY Erie Community College. Buffalo State will provide their modern outdoor classroom, state-of-the-art aquatic research center, and a GLC research vessel, while Erie Community College will allow its students to get college credit for participating in the program to further their environmental careers.

Through hands-on experiences, such as educa-

tional tours, water-quality monitoring practice and community restoration and cleanup projects, participants in the Water Academy will gain valuable knowledge, skills and abilities to further their environmental careers. Environmental priorities of the program include local climate change solutions, addressing watershed contamination, and safeguarding fresh water. The Water Academy program will include work-

shops such as "The Love Canal Legacy in Western NY," "Healing Scajaquada Creek," and "Restoring Niagara's Hazardous Waste Sites."

Since 1992, EPA has distributed between \$2 million and \$3.5 million in grant funding per year, for a total of over \$68 million supporting more than 3,600 grant projects. This highly competitive grants program supports environmental education projects that increase public awareness about environmental issues and provide participants with the skills to take responsible actions to protect the environment. The program provides financial support for projects that design, demonstrate or disseminate environmental education practices, methods or techniques.

### LOST STREAM MAP

The STREAM & LAKE MAP OF NEW YORK resembles another map-- known to Pennsylvania anglers as the "Lost Stream Map."

It was completed in 1965 after a 30 year effort by Howard Higbee, a former Penn State Professor. Professor Higbee painstakingly plotted by hand, the location of 45,000 miles of streams onto the map. It sold extremely well - until the printer declared bankruptcy and hauled Higbee's work to the landfill.

But reprints were impossible because the maps were printed in non-photographic blue. Higbee was even offered \$400 for one of his last maps. And state agencies were forced to keep their copies under lock and key.

Then, at the age of 91, Howard Higbee's dream came true. Computers made it possible to reprint the map.

Then the STREAM & LAKE MAP OF NEW YORK was created.

### RAVE REVIEWS

"It is in showing where to find out-of-the-way trout streams that makes the map such a treasure to the fisherman."

—Joe Gordon, TRIBUNE-DEMOCRAT, Johnstown, PA

"I have one of the original Higbee's Stream Map of Pennsylvania on my wall behind my desk. It's the best thing available as far as streams are concerned. I use it all the time for reference. I don't know of anything more extensive and it is the most accurate map out there as far as streams are concerned."

—Dave Wolf, PA Fish and Boat Commission
