The annual St. Patrick's Day Parade, is Buffalo's largest celebration of the Irish heritage. The enthusiastic crowds line Delaware Avenue as the Irish dancers, bands, civic organizations, and others march proudly by in celebration and in honor of St. Patrick.

The United Irish American Association (UIAA) has elected Patrick D. McGuinness as the Grand Marshal of the 2020 Saint Patrick's Day Parade. The 2020 Parade is on Sunday, March 15th. The day will start with Mass celebrated by our chaplain Fr. David Richards at

Saint Joseph's Cathedral at 10:30 AM. Parade participants will line up near the McKinley Monument and proceed north on Delaware Avenue to North Street at 2 PM.

Deputy Marshals are selected by the Grand Marshal. Patrick has asked his wife Lois, his brother Paul McGuin-

ness and his grandson T.J. (Timothy James) Messina to be deputies for this once in a lifetime honor. A large group of family and friends will also march the route.

The theme of the parade is "Hail to Saint Patrick - God Bless America - Support our Troops and First Responders".

## Red Cross Urges Healthy Individuals To Give Blood

The American Red Cross strongly urges healthy, eligible individuals who are feeling well to give blood or platelets to help maintain a sufficient blood supply and prevent shortages as concerns about the outbreak of coronavirus disease 2019, or COVID-19, rise in the U.S.

Cold and flu season has already impacted the nation's ability to maintain its blood supply. As the number of coronavirus cases grows in the U.S., the number of people eligible to give blood for patients in need could

decrease further.

"We're asking the American people to help keep the blood supply stable during this challenging time. As communities across the country pre-

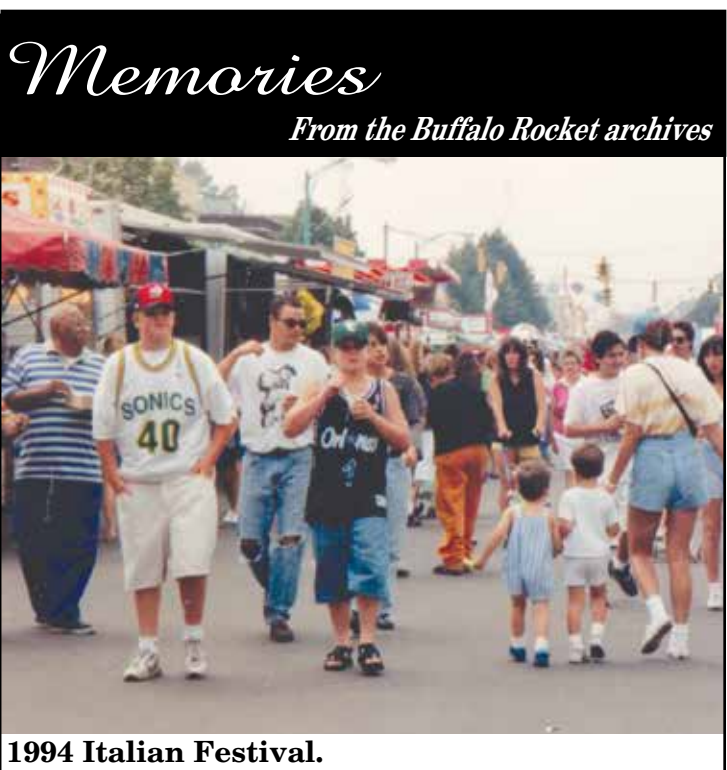

pare for this public health emergency, it's critical that plans include a readily available blood supply for hospital patients," said Chris Hrouda, president, Red Cross Blood Services. "As fears of coronavirus

rise, low donor participation could harm blood availability at hospitals, and the last thing a patient should worry about is whether lifesaving blood will be on the shelf when they need it most."

Please make an appointment to donate blood now by using the Red Cross Blood Donor App, visiting RedCrossBlood.org, calling 1-800-RED CROSS (1-800-733-2767) or enabling the Blood Donor Skill on any Alexa Echo device. Blood donors

## Kahun Adds Scoring For Sabres

Dominik Kahun has been a pleasant surprise since joining the Sabres in a trade deadline deal. Kahun was acquired from the Pittsburgh Penguins for Connor Sheary and Evan Rodrigues who were both unrestricted free agents and sure to be gone at the end of the season.

Kahun is a skilled forward with upside, a definite asset for the Pens. But the Penguins with Sydney Crosby and Evgeni Malkin are in a win now situation. They don't have the luxury of watching Kahun develop over the next few seasons. He has also suffered some injuries and was on the shelf at the time of the trade. Sheary was attractive to the Pens because he has experience playing and scoring on a line with Crosby. He and Rodrigues give Pittsburgh depth as they prepare for a playoff run.

As a rookie with the

Chicago Blackhawks last season, Kahun scored 13 goals and 24 assists for 37 points in 82 games playing mainly with Hawks Captain Jonathan Toews and sniper Alex DeBrincat. After a trade he scored 10 goals and 17 assists for 27 points in 50 games with the Pens this season.

Kahun is a speedy skater. He is a plus eight so far this season and a plus 18 for his career.

Dominik Kahun shootout winner.

## Where do mothers get the energy?

Ever wonder how mothers have the ability to just keep on going, no matter what? My Mom left us suddenly at a picnic in Akron Falls over 50 years ago. Still the memories remain of all she did as we were children growing up. She was the mother of eight children, I also had eight, and we lived through some pretty rough times. My childhood was following the great depression years, without a lot of money, so my mom had to do with what we had. My wife had the same problem as we also had eight children. They had to cook for a large family, provide clothes to wear, keep the house clean, endless food shopping, with little or no time to relax while making every penny count. Where did they get the energy?

My mother was a full blooded Italian and like most Italian women, loved to cook and feed you. She made her own bread, ravioli, spaghetti, baked cakes and pies constantly. With the bread dough she made sweet rolls, pizza, and bread sticks. After we had our own families, and there were lots of us, every Sunday was pasta day at Mom's. We would have as many as 27 people on any given Sunday for sauce, spaghetti and meatballs, homemade bread and frosted cinnamon rolls. Later on in the day, dessert of home baked apple pie and ice cream. My one sister and my sisters in law would help with the clean up, but the cooking was done by momma mia. My dad provided the money to buy the food and pay the rent so he

was exempt from doing anything. And he was good at it. He was good at three things, drinking beer, smoking cigarettes, and reading comic books. Other than that I do not recall him doing much of anything except pace from one end of the house to the other. No cooking, no housework, no fixing anything broke, just hanging out. He was a good guy though, and easy going. Him being Irish, he did not like spaghetti, so my mom would have to cook him steak and mashed potatoes every meal. That is in addition to doing the regular meals for us. My Mom also excluded her sons from cooking and housework. The only thing I learned how to do was peel potatoes and iron hankies. Seemed like so many potatoes to peel, so many handkerchiefs to iron. There were no tissue boxes back then. My wife was the same with me as far as stay out of the kitchen, but not the five sons. They all know how to cook. I still have to learn how to boil water. Back to the question, where do they get the energy? This is not a nine to five day with mothers, as there are demands every

waking hour. Not only do they have to take command and make things work, they have to do most of the work themselves. Now so many years later, I recall the days when I was a youngster. We had no washing machine, no microwave, no wash and wear clothing, everything had to be washed and ironed with an iron. My mother's day started early in the morning, making breakfast for all of us. House cleaning, wash and iron every day and fix lunch as we all came home from school to eat. No school lunches or we could not afford them. Shopping in the afternoon and preparing dinner for the onslaught of hungry humanity that was my father, brothers and sisters. She loved it and never ever complained. The more you ate of her food, the more she liked it. Maybe that is why she left us so suddenly in her mid sixties. My dad passed almost to the day one year before her. Perhaps the energy she needed for most of her

Old heat before use, flat iron.

life had left her. Maybe she just got tired. So her last words were "I'm going" and left us. She deeply loved my dad and would and did anything for him. He was like the king of the house. He was the original Dr. Doolittle. He would better fit Dr. Do-nothing. Let there be no doubt, we all still loved him. Mom and Dad were happy with their lives together and there was never ever any threat of separating. She was content in taking care of her man and her kids. Again I wonder where do moms get the energy. That was my mom, how many have moms like mine?

# Ask Rusty - About the Dreaded "IRMAA" Provision

**Dear Rusty:** About a month or two ago I was notified that my Social Security was being reduced from \$1,583 a month to about \$1,283 a month - a \$300 deduction! They said it was because my income was over the limit on my last return. I filed my taxes "married - filing separately" because my wife has her own income. If we had filed jointly, I would not have had the reduction. My question is why wasn't this told to us when we filed our Income Tax last year instead of a last-minute thing? I am a 77-year old and a 100% disabled veteran, which probably has no effect on this, but wanted to add that information. Any light you can shed on the matter will be very much appreciated. Signed: Irritated Senior

**Dear Irritated Se-**

**nior:** First, I want to thank you for your service to our country. Allow me to explain what I believe happened. Your net (not gross) Social Security benefit payment was probably reduced as a result of a rule known as "IRMAA" - the "Income Related Medicare Adjustment Amount." This is a supplement added to your Medicare Part B premium as a result of higher income, and a higher Medicare premium would mean a lower net Social Security payment. Although filing your taxes separate from your wife does mean a lower income reported to the IRS for you, it also reduces the clip levels at which the IRMAA rule kicks in. For those who file income tax as an individual, IRMAA applies if your "pro-

visional" income from all sources, including IRA or 401(K) withdrawals and half of your SS benefits for the tax year, exceeds \$87,000. For those who file taxes jointly as a married couple, IRMAA applies if your combined income is more than \$174,000. Incomes above those clip levels result in corresponding higher IRMAA premiums, up to a maximum of \$491.60 (for 2020). So apparently your income for your filing status exceeded one of the higher IRMAA clip levels, which resulted in your monthly Medicare Part B premium going from the standard \$144.60 to an IRMAA premium about \$300 higher. Note that if your income in a subsequent year falls below the IRMAA clip levels, your Medicare premium will also go down to the level appropriate for your more recent income level. As far as why you weren't told this in advance, neither Medicare nor the IRS (nor any other Government agency) will advise you in advance on such matters; the onus is upon you (and your tax preparer or financial advisor) to understand the implica-

tions of your income on your Medicare premium as well as your income tax obligation. You may want to speak to your tax advisor to see if there is a tax-filing option for elim-

inating the IRMAA. Once again, thank you for your service to our country, and I hope the above clarifies what happened to your Social Security benefit.

### Stream & Lake Map of New York

**LOST STREAM MAP**

The STREAM & LAKE MAP OF NEW YORK resembles another map--known to Pennsylvania anglers as the "Lost Stream Map."

It was completed in 1965 after a 30 year effort by Howard Higbee, a former Penn State Professor.

Professor Higbee painstakingly plotted by hand, the location of 45,000 miles of streams onto the map. It sold extremely well - until the printer declared bankruptcy and hauled Higbee's work to the landfill.

But reprints were impossible because the maps were printed in non-photographic blue. Higbee was even offered \$400 for one of his last maps. And state agencies were forced to keep their copies under lock and key.

Then, at the age of 91, Howard Higbee's dream came true. Computers made it possible to reprint the map.

Then the STREAM & LAKE MAP OF NEW YORK was created.

**Why every angler and boater needs this map**

Professor Higbee's Stream & Lake Map of New York is the first and only highly detailed map of its kind. The 3.5-foot-by-4.5-foot New York map shows 65,000 miles of streams plus lakes.

**For a limited time -- get 3 bonuses with each map**

**BONUS #1**  
**GUIDEBOOK:** Pinpoint the best fishing in New York with this valuable guide. Easily locate over 3,000 streams and 1,200 lakes shown on the "Stream & Lake Map." Your map guide will take you to the top 1,123 select water for 19 species of gamefish.

**BONUS #2**  
**REPORT: Finding Secret Fishing Spots**  
47 tips, tactics and tools you can use to find your own secret spot and catch more fish.

**BONUS #3**  
**REPORT: How Anglers Stalk and Catch Record Fish**  
The average big fish has evaded capture for over 10 years. Find out which instincts set them apart from smaller fish. Stalking and catching a trophy requires knowledge of their unique habits and those special times when their guard is down. Armed with the information in this new and exclusive 24-page report--you could be in for the fight of your life.

**RAVE REVIEWS**

"It is in showing where to find out-of-the-way trout streams that makes the map such a treasure to the fisherman."

—Joe Gordon, TRIBUNE-DEMOCRAT, Johnstown, PA

"I have one of the original Higbee's Stream Map of Pennsylvania on my wall behind my desk. It's the best thing available as far as streams are concerned. I use it all the time for reference. I don't know of anything more extensive and it is the most accurate map out there as far as streams are concerned."

—Dave Wolf, PA Fish and Boat Commission

# Red Cross Urges Healthy Individuals To Give Blood

From page one.  
with type O blood and platelet donors are especially needed right now.

Donating blood is a safe process and people should not hesitate to give or receive blood. There are no data or evidence that this coronavirus can be transmissible by blood transfusion, and there have been no reported cases worldwide of transmissions for any respiratory virus, including this coronavirus, from a transfusion.

The Red Cross only collects blood from individuals who are healthy and feeling well at the time of donation – and who meet other eligibility requirements, available at RedCrossBlood.org. At each blood drive and donation center, Red Cross employees follow thorough safety protocols including wearing gloves, routinely wiping down donor-touched areas, using sterile collection sets for every donation, and preparing the arm for donation with an aseptic scrub. These mitigation measures will help ensure blood recipient safety, as well as staff and donor safety in reducing contact with those who may potentially have this respiratory infection.

Blood drive hosts also play a critical role in maintaining a sufficient blood supply and are asked to keep hosting blood drives for patients who rely on lifesaving blood. The need for blood is constant, and volunteer donors are the only source of blood for those in need of transfusions.

The Red Cross, with the help of its blood drive hosts and blood donors, can help ensure the safety and availability of the U.S. blood supply for patients including accident and burn victims, heart surgery and organ transplant patients, and those receiving treatment for

leukemia, cancer or sickle cell disease.

To learn more about hosting a blood drive for patients in need, please visit RedCrossBlood.org.

The top priority of the Red Cross is the safety of our valued staff, blood donors and blood recipients, and we are committed to transparency with the American public during this evolving public health emergency. There are no data or evidence that this coronavirus can be transmissible by blood transfusion, and there have been no reported cases worldwide of transmissions for any respiratory virus including this coronavirus, from a transfusion.

Nonetheless, the Red Cross has implemented new blood donation deferrals out of an abundance of caution. Individuals are asked to postpone their donation for 28 days following:

- Travel to China and its special administrative regions, Hong Kong and Macau, as well as Iran, Italy and South Korea;

- Diagnosis of COVID-19, contact with a person who has or is suspected to have the virus.

As the situation evolves, the Red Cross will continue to evaluate all emerging risks in collaboration with the U.S. Food and Drug Administration, Centers for Disease Control and Prevention and industry partners to determine if additional intervention strategies are needed. Together, we stand ready to keep the American public informed and prepared.

Upcoming blood donation opportunities, March 10-31:

**Buffalo:** 3/10/2020: 9:30 a.m. - 3 p.m., University at Buffalo North Student Union, Student Union. 3/13/2020: 8 a.m. - 1 p.m., Erie County Sher-

iffs Office, 134 W. Eagle. 3/25/2020: 10 a.m. - 3 p.m., WNY Chapter, 786 Delaware Ave. 3/31/2020: 9 a.m. - 2 p.m., Sisters of Charity Hospital, 2157 Main Street.

**Tonawanda:** 3/19/2020: 2 p.m. - 7 p.m., Tonawanda Fire Department, 44 William St.

A blood donation takes about an hour from start to finish, but the actual donation itself only takes about 8-10 minutes. Donors can also save up to 15 minutes at the blood drive by completing a RapidPass®. With RapidPass®, donors complete the pre-donation reading and health history questionnaire online, on the day of donation, from a mobile device or computer. To complete a RapidPass®, follow the instructions at RedCrossBlood.org/RapidPass or use the Red Cross Blood Donor App.

To donate blood, individuals need to bring a blood donor card or driver's license or two other forms of identification that are required at check-in. Individuals who are 17 years of age in most states (16 with parental consent where allowed by state law), weigh at least 110 pounds and are in generally good health may be eligible to donate blood. High school students and other donors 18 years of age and younger also must meet certain height and weight requirements.

### TIMMY

See the video on our Facebook page!

Timmy is a dark grey tabby. This two year old boy is an awesomely cool cat. He is posing very formally for this picture. However, he is a very playful young man who loves attention and petting. He is also friendly toward dogs. Timmy is FIV positive and many people assume he is unadoptable. This is not true. FIV is NOT particularly contagious and cannot be spread by casual contact. Most FIV+ cats live long normal lives. Come and visit Timmy at the shelter. His wonderful personality will win you over. Pet ID: 43911603
